A CENTURY OF DEVELOPMENTAL PSYCHOLOGY

Ross D. Parke, Peter A. Ornstein, John J. Rieser, and Carolyn Zahn-Waxler, Editors

In a broad overview, ***A Century of Developmental Psychology,*** looks back over a century of developmental psychology and assesses the influence of key historical figures on current theory and research in the field. From these readings a clear sense emerges of the recurrent nature of many of the important theoretical, developmental, and methodological issues in developmental psychology.

The opening chapter consists of 75 pages that recount the evolution within this field of investigation over the last hundred years: specifically noting cognitive, emotional, and social relationship developments; aim and scope of mechanistic and organismic models; focus and roles of the critical eras of development; and experimental and non-experimental approaches to methodology. This overview was especially written to set the perspective for the remaining twenty-one chapters, collected here for the first time from separate issues of *Developmental Psychology* during the APA Centennial year (1992). These chapters are arranged chronologically and divided into sections that cover the founding years of developmental psychology, the consolidation of a separate science of development, the middle years, and the modern era. The final four chapters are reflections on the future of the field by prominent developmental psychologists.

Abbreviated Table of Contents

An Overview of a Century of Developmental Psychology
Darwin and Developmental Psychology
From Philosophy to Developmental Psychology
The Making of a Developmental Science
John Dewey and Human Development
The Other Alfred Binet
Individual Meaning and Increasing Complexity
John B. Watson's Legacy
Jean Piaget's Enduring Contribution to Developmental Psych.
H. Werner's Relevance for Contemporary Developmental Psych.
William L. Stern: A Neglected Founder of Developmental Psych.
Lev Semyonovich Vygotsky and Contemporary Developmental Psych.
The Paradox of Nature and Nurture
Myrtle B. McGraw: A Growth Scientist
The Origins of Attachment Theory
Social Learning Theory and Developmental Psych.
A Singular Career: Nancy Bayley
Learning to Perceive and Perceiving to Learn
Yesterday's Premises, Tomorrow's Promises
Cognitive Development
The Role of Parents in the Socialization of Children
Developmental Psych. in the Context of Other Behavioral Sciences

NEW, IMPROVED, AND
EXPANDED

Publication Manual

of the American Psychological Association,
Fourth Edition

With over 2 million copies of the third edition sold, the ***Publication Manual*** is **the** style manual most used by writers and students in psychology, the other behavioral and social sciences, nursing, criminology, and personnel areas. The ***fourth edition*** of the ***Publication Manual*** contains new sections, including:

- Additional guidelines to reduce bias in language;
- Expanded instructions for presenting statistical information;
- Referencing that includes electronic media and legal materials;
- Updated information on preparing manuscripts with a word processor, and
- General policies and ethics of scientific publication;
- and more!

The ***Publication Manual*** gives you all the information you need about the process of publication from organizing, writing, keying, and submitting your manuscript to seeing the accepted manuscript through production and publication. Plus, this ***fourth edition*** raises your awareness of publishing ethics issues and accurate, sensitive word choices in describing persons. Order your copy of this essential resource today! Available June 1994. Approximately 340 pages.

Contents: Quality of Contents; Characteristics of Authorship and Articles; Parts of a Manuscript; Quality of Presentation; Writing Style; Grammar; Guidelines to Reduce Bias in Language; Punctuation; Spelling; Capitalization; Italics; Abbreviations; Headings and Series; Quotations; Numbers; Metrication; Statistical and Mathematical Copy; Tables; Figures; Footnotes and Notes; Reference Citations in Text; Reference List; References to Legal Materials; Preparing the Word-Processing File for Editing and Typesetting; Instructions for Typing the Parts of a Manuscript; Transmitting the Accepted Manuscript for Production; Reviewing the Copy-Edited Manuscript; Proofreading; After the Article Is Published; Policies Governing the Journals; Editorial Management of Manuscripts; The APA Journals; Journal-Related Periodicals.
